Galion LLC

Screw Machine and CNC Products

Cold forming, screw machining, and small CNC machining are the primary operations at Galion LLC. Galion LLC has the ability to cold form various materials up to 20mm in diameter, screw machine parts up to 1.75"Ø x 6.5", and hold part tolerances as tight as +/- .0005". Secondary operations at Galion LLC consist of tumbling, washing, pressing, phosphating, conventional painting, electrostatic painting, marking, several types of non-destructive testing, de-burring, and wire EDM. Galion LLC has fully staffed, on-site Metrology and Tool rooms. Galion LLC produces parts for the following industries:

Automotive

Commercial

Defense
